GENERAL INSTRUCTIONS FINAL STAGE 1

1. Write your results of the analysis with the template provided. In addition, we require you to:
   a. Write your analysis completely and clearly.
   b. Write a report with a maximum of 10 pages in English. Use an A4 paper size, Times New Roman font with font size 14 for chapter titles and font size 12 for the remainder, with line spacing 1.15 and left margin 4 cm, and the rest: 3, 3, 3, following the provided template.
   c. Participants should include the syntax, additional figures, and references in the attachment page right after the article. The attachment page is not included in the previous 10 pages and has no page limit.
   d. Images that are not of paramount importance can be included on the attachment page to conserve page usage. The attachment page has no page limit. Ensure that you index the images you attach to the attachment page.
2. Submission:
   a. Participants also required to submit the following files on Live Coding Session, compiled together in a .ZIP file:
      - Report/Article: A detailed report in PDF format.
      - Code/Syntax: The code used to generate your predictions and analysis. This can be in Python (.ipnyb), or R (.rmd). The code should be well-commented and organized.
      - Miscellaneous: Any file that is part of your final report.
   b. All files must be named according to the following convention: **ex: Final Report_[TeamName].pdf, src_[TeamName].ipynb.**
3. Upload your team's answer on time.
4. All kinds of cheating or breaking any rule, including copying answers from other teams will result in disqualification.
5. Allowed Websites:
   a. Participants are not allowed to log in to their Google Account or any file sharing account(github, google drive, etc.).
   b. Participants are not allowed to log in to their Whatsapp Account or any media social account.
   c. Participants may open any website for references and documentation.
   d. Not allowed: AI/LLM/AutoML platforms (e.g., ChatGPT, Bard, Copilot).
   e. Participants are not allowed to use Google Colab.
6. Dataset Usage:
   a. Teams may only use the dataset provided. External datasets are not allowed.
7. Computers & File Transfer:
   a. Each team will be provided with two computers. Teams may use one for coding and the other for writing their report.

Himpunan Mahasiswa Statistika ITS (HIMASTA-ITS)

Contact Person :
Leonardus (+62 896-3691-5069)
Alex (+62 816-4960-0060)

   b. File transfer between the two computers is only allowed using Flashdisk provided by the committee.
8. Report Template:
   a. The report template will be provided in Google Docs. Teams must make a copy of the template, complete their report using that format, then convert it to PDF for submission.
9. Submission Format:
   a. The .ZIP file must contain:
      i. Final Report (PDF) following the given template
      ii. Code (.ipynb, .py, or .rmd)
      iii. Miscellaneous files (e.g., figures, saved models) if directly relevant to the final report
   b. A requirement.txt or environment file may be included (optional)
10. Submit your final work in the flashdisk given by the committee.

Any participant who breaks the general instructions will be disqualified.
